When most people look for a job, they dust off the resume and hit the job boards. Then they apply to hundreds of jobs and get nothing in return. Stop! **It's not a "numbers game," it's a referral and recruiter game.** I've got a proven five-step process to land your dream job and guess what - "job search" is the last stop on the list!

FIVE STEPS TO YOUR DREAM JOB

🚀 Step 1: What do you want?

- Your vision and values - what's important to you?
- What kind of jobs / companies / industries interest you?

🚀 Step 2: What do your target employers want?

- Who are your ideal employers?
- What are they looking for in an employee?

🚀 Step 3: Develop your personal brand

- Craft a personal brand that tells your story and appeals to target employers
- Update your resume and optimize your LinkedIn profile

🚀 Step 4: Strategic networking

- Use your network to access the hidden job market
- Connect with recruiters, hiring managers, and VIPs at your target companies

🚀 Step 5: Job search

- Strategically search for and apply to jobs with less effort
- Nail the interview with preparation, knowledge, and enthusiasm
